Senior Frontend Engineer with 5+ years of experience building scalable and high-performance web applications using **Vue.js, React, and TypeScript**. Specialized in **frontend architecture, reusable component systems, and large-scale application migrations**.

Experienced in designing complex UI systems, real-time data applications, and data visualization platforms. Strong background in **modern frontend tooling, performance optimization, testing, and scalable state management**.

Proven ability to collaborate across teams, mentor developers, and deliver maintainable frontend solutions that support long-term product growth. Recently leveraging **AI-powered development tools** to accelerate development workflows and improve delivery efficiency.

EXPERIENCE

SENIOR FRONTEND DEVELOPER

Wakeb_Data | Egypt

JUL 2024 – PRESENT

- Designed and developed **complex frontend systems** using Vue.js and TypeScript.
- Built advanced **data visualization interfaces** using interactive maps and charts.
- Implemented **real-time data streaming** and socket-based features.
- Architected scalable UI structures for enterprise business platforms.
- Collaborated closely with backend and design teams to deliver high-quality user experiences.
- Mentored mid-level developers and supported engineering best practices.
- Built a **reusable map component package** used across multiple company products.

FRONTEND DEVELOPER

HectarApp | Saudia Arabia

MAR 2024 – OCT 2024

- Built **reusable component systems** to improve development speed and maintainability.
- Implemented **unit testing for components and utilities** using Vitest.
- Managed and improved **CI/CD pipelines using GitHub Actions**.
- Conducted code reviews and supported junior developers.
- Optimized application performance through improved architecture and best practices.

FRONTEND DEVELOPER

Payiano | Egypt

MAY 2022 – MAR2024

- Developed modern web applications using **Vue.js, Nuxt.js, Tailwind CSS, and TypeScript**.
 - Integrated multiple **RESTful APIs** to deliver scalable web solutions.
 - Collaborated with UX/UI teams to ensure technical feasibility and high-quality user experience.
-

-
- Led several major **frontend migrations and modernization initiatives**:
 - Migrated **Vue 2** → **Vue 3**
 - Replaced **Webpack** with **Vite** for improved build performance and developer experience.

FRONTEND DEVELOPER

Dory Software | Saudia Arabia

JAN 2022 – MAY 2022

- Developed web applications including **e-commerce, booking systems, and real estate platforms**.
 - Built reusable UI components such as **data tables, form wizards, and shared utilities** to accelerate development.
 - Implemented data visualization using **Highcharts, AmCharts, and Chart.js**.
 - Conducted code reviews and supported junior developers.
 - Worked closely with design teams to deliver consistent and user-friendly interfaces.
-

TECHNICAL SKILLS

CORE TECHNOLOGIES

HTML, CSS, JavaScript, TypeScript, REST APIs, GraphQL

Frontend Frameworks

Vue.js, React.js, Nuxt.js, Next.js

Styling & UI

Tailwind CSS, Vuetify, Shadcn, PrimeVue, Bootstrap

State management

Pinia, Vuex, Redux, Zustand

Testing

Jest, Vitest, Cypress, Storybook

Build Tools & Architecture

Vite, SPA, SSR, SSG

Data Visualization

Highcharts, Chartjs, Three.js, Maplibre, Leaflet, Deck.gl

Other

Web Performance Optimization, SEO, Agile (Scrum), Figma

EDUCATION

BACHELOR OF MASS COMMUNICATION

Helwan University — Cairo

SEP 2017 — JUN 2021

LANGUAGES

ARABIC ---- NATIVE

ENGLISH ---- PROFESSIONAL WORKING PROFICIENCY
